## Professional Experience

---

### Attack & Penetration Manager

Protiviti, Inc.

Philadelphia, PA

August 2021 - Present

- Conducted web and API penetration tests on 200+ distinct applications to uncover misconfigurations and vulnerabilities in accordance to the OWASP Top 10 risks and to deliver clear remediation guidance
- Performed static and dynamic analysis on mobile applications to identify flaws and vulnerabilities across both iOS and Android platforms, with a focus on the OWASP MASVS
- Participated in phishing engagements to assess social engineering susceptibility and to identify gaps in employee verification and response procedures
- Spearheaded penetration testing projects worth \$3.5MM+ and led consultants throughout the project lifecycle, encompassing client and intra-team communication, technical fieldwork, and in-depth debriefs
- Trained and mentored 10+ consultants on penetration testing methodologies, technical ethical hacking tools, reporting standards, and client communication best practices

### Security & Privacy Consultant Intern

Protiviti, Inc.

Philadelphia, PA

June 2020 - July 2020

- Collaborated with a cross-functional intern team to deliver process-improvement solutions for a simulated client engagement
- Conducted internal IT and financial audit reviews to identify key risks, evaluate control effectiveness, document findings, and present recommendations
- Participated in team-building and technical training sessions to strengthen communication skills and technical auditing competencies

### Desktop Rollout Intern

SEI Investments Company

Oaks, PA

June 2019 - August 2019

- Performed operating system upgrades across multiple corporate locations and supported 3,700+ employees nationwide
- Managed and validated 500+ IT assets via ServiceNow to maintain accurate inventory records
- Diagnosed and resolved 30+ weekly software and hardware issues, including, but not limited to, Active Directory credential management, system malfunctions, and workstation performance degradation
